ORTHOLAM

Ensures Easy Donning.

Forms thin low friction, breathable barrier.

Soothes and nourishes.

Prevents chafing and skin irritation.

Increasing patient comfort and socket compliance.

Leaves no greasy feeling or residue.

PROSTHETIC 3IN1 DONNING LUBRICANT

A silky skin silicone based moisturiser, formulated to form a thin low friction, breathable barrier. Silicone provides for the smooth application and easy donning of prosthetic devices. Apply a thin layer to the residual limb. Massage into the skin. Apply before donning your Prosthetic device to provide a low friction interface that enables easy donning. Adds a protective moisturizing barrier with healing properties. Compatible with most TPE and silicone liners.
SKU: DBDN75. 75g Jar.

Hydrates, Nourishes & Promotes Healing.

Provides relief from chafed skin.

Creates a breathable barrier.

Locks in moisture and rejuvenates skin cells.

Decreases Prosthetic and Orthotic abandonment.

PROSTHETIC SKIN THERAPY OINTMENT

Promotes healing and provides relief from chafed skin. Contains natural beeswax, zinc plus essential oils and is high in vitamins A and E. Creates a breathable barrier between the skin and prosthetic liner, locking in moisture and rejuvenating skin cells up to 9 layers deep. Decreases Prosthetic and Orthotic abandonment and reduces patient skin related appointments.
SKU: DBH75. 75g Jar.

PROSTHETIC SKIN MOISTURISING CREAM

Incorporates Vitamin E and essential oils, offering a rich, replenishing and moisturising cream. Protects and maintains a smooth healthy skin while restoring moisture. Provides relief from chafed skin, and improves scarring. Organic honey offers the perfect nourishment for sensitive skin. Absorbs quickly to moisturise and condition your skin.
SKU: DBC75. 75g Jar.

Soothes Skin Irritation and Restores the Skin Condition.

Restores moisture while promoting healthy skin.

Provides relief from chafing.

Improves scarring.

PROSTHETIC ANTI-CHAFE LIQUID POWDER

Prevents irritation and supports healthy skin, while providing an effortless solution for donning prosthetic suction sockets or liners. The liquid-to-powder formula prevents chafing and friction and offers a great alternative to abrasive stump socks. After applying the liquid powder, your residual limb will glide easily into your socket while avoiding skin bunching and chafing. Your skin will look and feel smooth without any greasy or tacky residue that often occurs with silicone lotions.
SKU: DBL250. 250ml Bottle.

Prevents chafing and friction.

Acts as a deodorant keeping the skin cool, while absorbing perspiration during the day.

Friction-free silky powder finish.

Antioxidant protection for healthy skin.

ORTHOLAM

PROSTHETIC CLEANSING SPRAY

Developed as a gentle cleanser that helps remove any sweat and bacteria from the prosthetic liner. This spray is used to aid in the donning and cleaning of prosthetic liners. Can be wiped off or left to evaporate naturally. If used to clean the liner, turn the liner inside out before cleansing. After rinsing, wipe and dry with a clean cloth.
SKU: DBS240. 240ml Spray Bottle.
